

## RECREATION COMMITTEE

Cordillera's Recreation Advisory Committee was established in June of 2003. The members of this committee were volunteers appointed by the Cordillera Metropolitan District (CMD) Board to represent the Cordillera Property Owners' interests and concerns, advocating for cost effective and quality recreational activities, working with CMD to develop budget, and make recommendations to CMD for the implementation of new programs and operating plan.

Surveys of the Property Owners identified and prioritized programs of interest. With this survey, the Recreation Committee was able to proceed forward with updating programs and initiate new programs. A copy of the survey is available to anyone interested.

The Committee consists of the Director of Community Operations, CMD Board representative and four (4) property owners.
